

# Arvie<sup>™</sup> – Borderless Continuity of Care

Powered by Knowledge Catalyst

- Building continuity of care through lasting relationships between doctors and patients.
- Offering extended outreach for specialist clinics in Singapore by catering to regional health demands in ASEAN.
- Providing access to foreign patients who are seeking medical consultation and treatment options in Singapore.
- Secure, private, consent-based services. Built on infrastructure proven by the HealthCerts certificate issuance program.

## How Arvie<sup>®</sup> Works in 3 simple steps

1 Patients consult doctors in Arvie<sup>®</sup> Health Ecosystem.

Doctors can refer patients to you for further consultations.

2 Patients access their health records and appointments through Arvie<sup>®</sup> mobile app.

3 Patients give consent to you to access their details and health records in their digital vault.

You can provide your diagnosis, schedule appointments, or send further referrals if required.

## Our Partners

120+ Clinics and Travel Enablers
